

September 07, 2025: If you did not already know, I am very sorry to have to inform you that criminals inside of the federal government are controlling a horde of brainless zombies that they use to slow down the progress of good people. This is what has happened to our world. Please take this information seriously and hope that you never have to face such a mindless group of idiots dragging down your life every day. Zombie people of the world, shame on you all. You are slaves of satan! I pity you.
